

# VENN DIAGRAMS

Quickly create venn diagrams  
using the iPad

USING VENN DIAGRAM

## STEP ONE

Launch Venn Diagrams and either create a new user or choose an existing user.

## STEP TWO

Create a new diagram and name it.

## STEP THREE

You can label circles and set their colors. You can also add more circles to your diagram.

## STEP FOUR

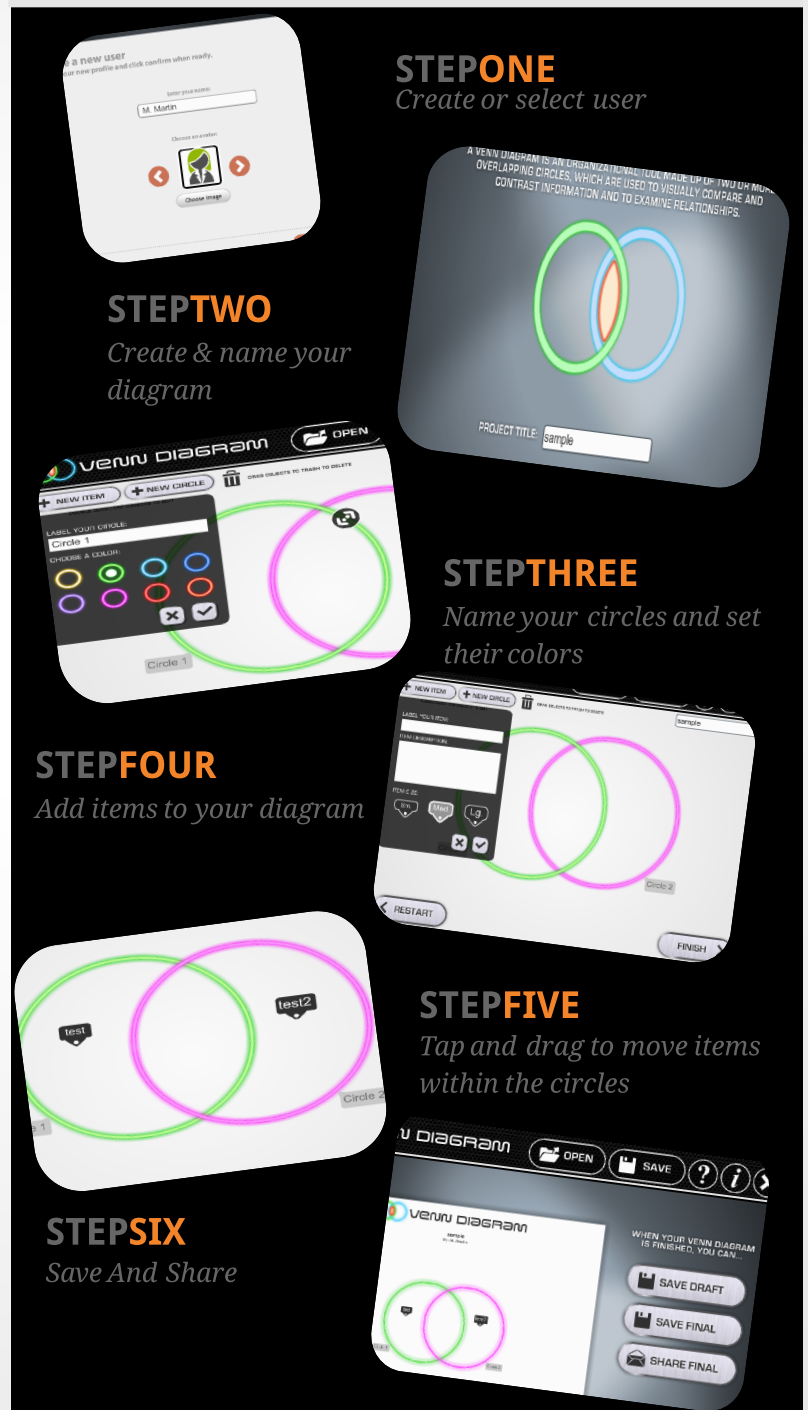

Add items to your circles. You can select the size of each item label.

## STEP FIVE

Move labels within circles by tapping and dragging.

## STEP SIX

Save and/or share your finished diagram. You can save as a draft if you are not done.

CREATED BY MEREDITH MARTIN @GEEKYTEACH

Venn Diagram is a great way to easily create digital venn diagrams. Finished diagrams can be saved to the camera roll and embedded in projects, reports, and webpages.
