

SOLVE THE OUTBREAK

Help the CDC Solve Outbreaks

USING SOLVE THE OUTBREAK

STEP ONE

Launch Solve the Outbreak read the introduction.

STEP TWO

Select an outbreak from the menu.

STEP THREE

Read the clues about the outbreak to find out what is happening.

STEP FOUR

Click on the supplemental material to get more specific data to help you answer the questions.

STEP FIVE

Earn achievements by answering questions and solving outbreak cases.

STEP SIX

Check your stats to see how you are doing, and for more information.

Solve The Outbreak is a great app to encourage critical thinking. It ties in wonderfully with both math and science, along with information text in the CCSS. Students learn to analyze data and apply it to real world settings.
