

TICK TOCK CLOCK

Learn To Tell Time

USING TICK TOCK CLOCK

STEP ONE

Launch Tick Tock Clock and select an activity - Learn, Practice, or Word Problems.

STEP TWO

On the Learn activity, students can move the hands on the clock and have the time spoken to them.

STEP THREE

The Practice activity shows a time on the clock and three digital choices below. Students tap the correct digital time.

STEP FOUR

Word problems gives students a math word problem to solve. It does not read the word problem aloud.

STEP FIVE

The settings on the main page give you more control over how the app works.

CREATED BY MEREDITH MARTIN @GEEKYTEACH

The settings on this app make it great for differentiated instruction. You can adjust the increments of time, set the difficulty level, and even have the difficulty adapt as the students answer questions.
