

WRITE ROOM

Distraction Free Writing With
Dropbox Sync

USING WRITE ROOM

STEP ONE

WriteRoom is a distraction free word processor. To begin, launch app and create a new folder and/or document.

STEP TWO

Add your title and type your text.

STEP THREE

Tap the two arrows in the bottom right corner to go full screen for no distractions.

STEP FOUR

To delete folders or files, swipe right to see the Delete button.

STEP FIVE

Under settings, you can customize your fonts, sizes, and more.

STEP SIX

WriteRoom links directly to Dropbox for easy sharing. Set up your Dropbox sync under Settings.

STEP ONE

Create New Document Or Folder

STEP TWO

Add Title & Type Text

STEP THREE

Go Full Screen

STEP FOUR

Swipe File & Folder Names To Delete

STEP FIVE

Go To Settings To Customize

STEP SIX

Link To Dropbox

CREATED BY MEREDITH MARTIN @GEEKYTTEACH

While Story Me limits you to one page per project, you can create as many projects as you like and put the images together when you are finished in a word processor. Have students create stories demonstrating parts of speech, or have them retell a story using photos of classmates!
