

Sentence Maker App

Sight Words & Sentences

The Sentence Maker app is a fun early learning app aimed at kindergarten and preschool. In this app, students listen to a sentence, then drag and drop the words in the correct order to create the sentence. The sentence is then read to them again. There is a comprehensive settings screen that allows teachers to customize the app in many ways. You can also create custom word lists and sentences, and record your own voice reading them. The app comes in both a free and paid version.

Create your first sentences
A simple new way to learn how to read and speak

Classroom Connection

This app is perfect for early learners. Have them use it as a center to practice sight words and sentences. Create your own custom word lists using classroom vocabulary words. Have students add their own words to it and record themselves speaking it aloud.
