

Meerkat Spell App

Practice sight word spelling

Meerkat Spell is a fun spelling app for younger students. Students race against virtual characters and gain speed by correctly spelling the words read aloud to them. As they win races, they earn points and advance through levels. They can also unlock mini games. The app features: 8 mini-games, 4 playable characters, 6 original songs, unlimited free multiplayer mode, 2,600+ words with professionally recorded MP3's, and 300+ word lists (with 8 years worth of spelling material). With multiplayer support you can race against players from all over the world (communication between players is not allowed) or join up with classmates nearby for in-class races to see who is number one.

Classroom Connection

Meerkat Spell is a fun app for beginner spellers. It seems to be geared towards first and second grade spellers, and would be a great way to practice sight words in class. Host a class competition to see who your champion speller is!
